## SUMMARY

Full-stack web developer with recent graduation from Purwadhika Jakarta bootcamp, specializing in TypeScript, JavaScript, and Next.js with hands-on experience in developing web applications tailored to business needs. Recently graduated from Purwadhika Jakarta bootcamp and have worked on several company profile projects, including those for GloryNailArt and Wetmen Law Firm. Skilled in understanding business needs, building result-oriented web applications, and demonstrating strong leadership, teamwork, problem-solving, and interpersonal abilities.

## WORK EXPERIENCE

### Freelance Web Developer

#### Glorynailart

(August - September 2023)

- Designed and developed the company's website using WordPress, creating a comprehensive company profile.
- Collaborated with clients to understand their needs and translated them into functional website features.
- Created and implemented web designs that showcased company information, products, services, customer testimonials, and nail art designs.
- Managed website content, ensuring it aligned with the company's branding and business goals.
- Organized client meetings to discuss and refine website requirements, resulting in a user-friendly platform with integrated booking functionality.

### Freelance Web Developer

#### Wetmen Lawfirm

(September-November 2023)

- Responsive Website Development Created a fully responsive website using WordPress to improve the online presence of Wetmen Law Firm
- Client Communication Collaborated with clients to ensure their needs were met through functional and aesthetically pleasing website features
- Web Design Execution Implemented web designs that highlighted the firm's profile, legal services, and expertise effectively
- Content Oversight Ensured website content was regularly updated to align with the firm's branding and business goals
- Project Management Conducted meetings to refine website requirements, leading to a user-friendly platform that enhanced client interaction

## PROJECT EXPERIENCE

#### • Mizuki sushi (Company Profile)

Developed a company profile website using **React.js** and **JavaScript**, applying **Tailwind CSS** to create a responsive and visually appealing UI/UX. Implemented key features such as the company description, team profiles, and contact information, resulting in a professional and user-friendly website that effectively showcased the company's brand and increased visitor engagement.

- **Tickzy (Mini Project : Event Ticketing Website)**

Designed the database schema using **dbdiagram.io** and Prisma ORM, connected it to **MySQL Workbench**, and mapped out error handling and URL guard scenarios. Built and integrated API-driven features with **Next.js**, utilizing **Bootstrap** and **DaisyUI** for front-end components, and styled the application with **Tailwind CSS** to ensure a responsive and consistent user experience. This approach streamlined the development process and resulted in a robust, user-friendly web application.

- **Atcasa (Final Project: Property Renting Website)**

Tasked with creating a web-based platform for users to compare accommodation prices and book properties seamlessly, designed the database schema using **Prisma ORM** and connected it to **MySQL Workbench**. Developed and integrated API-driven features, built the front-end with **Next.js**, and applied **Tailwind CSS** for responsive and cohesive styling. To ensure secure transactions, integrated **Midtrans** for payments, resulting in a user-friendly and efficient property rental platform that enhanced the booking experience for users.
